DANIEL LOGAN, Editor.

SATURDAY, MAY 9, 1896.

POLITICAL REVIEW.

Another week of the time allowed by law for the session of the Legislature has gone by and little or nothing has been accomplished in the line of necessary legislation. A few bills of minor importance, such as amendments to the Civil and Criminal Codes and the like have passed, but on the necessary measures concerning taxation, license and other sources of revenue little advance has been made.

The Senate has held several short sessions during the week, but only one measure of importance was acted on. This was Minister Damon's bill to refund the present indebtedness by issuing new bonds bearing 4 1/2 per cent interest, a discount of 15 per cent and commission of 2 1/2 per cent being allowed. This project came up on a reconsideration of a previous vote which laid the bill on the table, but was again defeated by a vote of 9 to 5. The objection to the bill was the large discount and commissions asked and the fact that the government had made no efforts to obtain figures on the loan from the United States, having relied solely on the London market. The general opinion of the Senate seemed to be that the matter had better rest for two years, and in the meantime terms from Boston and other cities in the United States could be obtained. Next week the Senate will take up another of Minister Damon's bills, which provides for a loan of \$2,000,000 for internal improvements on the terms given above. It is probable the Senate will cut the sum down to \$750,000, the amount actually needed, and provide for the issuance of a home loan at 5 per cent interest at par.

The House has spent most of the week hacking the License Bill to pieces. This is another of Minister Damon's pet measures which passed the Senate without much difficulty. It is doubtful if the author of the bill will recognize it after the House gets through with it—if they ever do.

In the meantime sixty-three days of the ninety allowed by the Constitution for the session of the Legislature have expired, and the people are beginning to grumble at the expense and waste of time. The Senate keeps well ahead of its work, but the House is woefully behindhand.

Cricket seems to be having a revival in the United States. At a meeting of the Chicago Cricket Association, to arrange a schedule for this season, six clubs were present. It will be remembered that a few years ago a Philadelphia team defeated the English team on its way to Australia. The game is not so exciting to spectators as baseball, but it is deemed by good authority to be a more beneficial exercise to the players, as well as more suitable for those who have passed their youth. Anyone who has imbibed the Motion that it is comparatively easy to make hits with the broad cricket bat should just test the matter by facing a good bowler.

Sir Mackenzie Bowell, who has lately resigned as Premier of Canada, began life as a printer's devil, worked at the trade for many years, bought a paper with his savings and got into politics.

The Boston Park Commissioners, it is alleged, will permit the sale of beer and light wines in the public parks this summer.

LEGISLATURE IN SESSION.

HOUSE OF REPRESENTATIVES
MAKING UP FOR LOST TIME.

Report of the Minority Committee on the Act to Mitigate Bill Relating to Quarantine Matters.

SIXTY-FOURTH DAY, MAY 9.

HOUSE OF REPRESENTATIVES.

The minority report of the select committee on House Bill No. 19, an act to repeal the "Act to Mitigate," was submitted, which states that while they agree with the majority that the bill should not pass, still their objections are based upon a different line of reasoning. They believe that the composition of the population of Honolulu is such as to render the Act to Mitigate necessary and that it has done much to mitigate the evils of prostitution.

While the minority favor the passage of all manner of wholesome laws for the protection of good order and morality, they cannot advise the passage of this bill, no matter how good the intentions of the amateur reformers and would-be Parkhursts who advocate it, may be. They finally recommend the indefinite postponement of both bills.

The minority report is signed by Reps. Robertson and Rycroft. The proposed amendment to Article 63 of the Constitution was made the order of the day for Monday.

House bill No. 25, relating to the presence of children on the streets after 9 p. m. or before 4 a. m. was taken up and passed the second reading.

Senate Bill No. 31, referring to corporations, passed second reading, as did House Bill 37, fixing penalties for assaults on public officers.

Minister Smith introduced a bill relating to quarantine regulations. The bill, which passed the first reading, provides that all steamers, before leaving port, bound for the Islands, must conform with the regular U. S. regulations. Failure to do so will result in a refusal of admittance of such vessels into our ports. With the danger of a repetition of last year's cholera scourge staring us in the face, it is imperative that we take all possible precautions. The plague is rampant in parts of Japan and we cannot be too active and vigilant.

House Bills 39, fixing a penalty for perjury; 40, same for vagrancy; 41, for assault, and 42, authorizing the Commissioners of Public Lands to reappraise the same passed their second reading.

Senate Bill 37, providing a hospital for aged and infirm Chinese, was received from the Senate and read for the first time, and Senate Bill 38, providing for penalties for malicious injury, passed its second reading.

Adjourned 11:25 a. m. to 10 a. m. Monday.

A FEW WORDS ON BICYCLES AND CUTLERY.

In a Coast newspaper devoted to the bicycle business we read that dealers in bicycles are authority for the statement that the business aspect of the bicycle trade has materially changed during the past year. Instead of the main business consisting in dealing with men's wheels, quite the contrary is true. Dealers are now doing their utmost to attract the eyes of the women. All of which shows that the ladies are taking very kindly to bicycle riding all over the world. And it is the same here, the demand for ladies' wheels is continually increasing. We have received five of the TRIBUNE LADIES' WHEELS on this steamer and have more on the way. These wheels are of this year's make, direct from the factory, no back numbers, and have all the latest improvements.

We have also a number of Tribune racers and gent's roadsters, and a number of "Zimmy" wheels. This is an entirely new machine, named after the great rider, Zimmermann, and we shall be pleased to explain its merits to intending purchasers.

But we started in to say a few words on CUTLERY, of which we received an immense assortment on the Australia, which is now unpacked and on exhibition. In table cutlery we have an immense variety in new and elegant patterns and all sizes. In pocket cutlery we have a number of new designs. Knives to cut lead pencils and knives to trim your finger nails with, and knives to cut down your expenses with. We have pruning knives which are just the thing for the members of the Legislature to use in cutting down the appropriation bills, and some suitable for the Advertiser man to do his "cheeseparing" with. In fact we have all kinds of knives, large and small, light or heavy, but all of them of the best quality and manufacture.

We have carving knives with ivory, buckhorn or bone handles, butcher knives, skinning knives, knives with corkscrews in them for camping out or staying at home. In fact we have all sorts of knives suitable for all sorts and conditions of people.

A QUESTION.

Wouldn't you consider a man capable of doing the most intricate work, capable of doing the simple work also?

Would you consider a man capable only of doing the simple work, quite as capable for that work, as the more skillful one?

We have been getting ALL your intricate and difficult work during the years past, now let us have ALL your work which requires less skill; then note after it leaves our hands how much better it looks—see if it does not give you better satisfaction.

Your watch is one of your best friends; it merits the treatment you accord your friends. We give it such treatment. It is our business. Ten years of satisfactory work have given us the reputation for the best; and yet we are doing better work to day than ever.

We are working just as hard to keep that reputation as we ever did to gain it. We are not content to rest easy, and let the reputation do all the work; the quality will never be lessened.

Do you know that your old key winder can be converted to a stem winder, and that it can be done so it will wind as smooth as melted butter? We have converted a number of them and can convert yours.

JAS. F. MORGAN,

300-21 Auctioneer.

COFFEE ESTATE AND LANDS For Sale.

I am directed to sell at Public Auction on

Wednesday, May 27, '96,

at 12 o'clock noon of said day at my sales rooms on Queen street, in Honolulu (unless sooner disposed of at private sale) the following described property, namely:

A tract of land of about 2,300 acres in fee simple situate at Kolo and Oleloaona 1 in South Kona, Island of Hawaii, about eight miles by a good road from Hilo, one of the largest villages in Kona. There is an excellent landing on the land itself from where the coffee and other produce could be shipped and a good site for a mill near the landing. Fifty acres of land are in coffee. Roughly estimated there is about seven hundred acres of splendid coffee land lying all on one block on both sides of the Government Road. Eight hundred acres lying above and to the East of the seven hundred acres above mentioned is also excellent land and although at a higher altitude is no doubt also well adapted for the coffee culture. The lower land below the coffee belt is suitable for pineapples and sisal. There is a drying house, store and work-rooms, a Gordon's Pulper, laborers' quarters and water tanks at the plantation, and the land is partly walled. There has never been any blight on this land, although coffee was planted a great many years ago. Old residents of Kona like the late D. H. Nahimu, J. W. Kualiokua and others have testified to this fact. There is a sea fishery appurtenant to Oleloaona 1.

Terms cash or part of the purchase price can remain on mortgage at eight per cent per annum. Deeds and stamps at the expense of purchaser.

A map of the property can be seen and further particulars obtained at my sales rooms.

J. F. MORGAN,

211-1d Auctioneer.

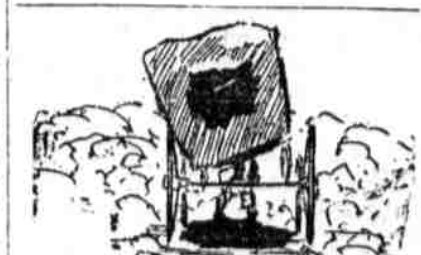

W.W. DIMOND'S

Here is a partial list of goods we received from England by the bark Doon:
